Mss. B.L.6 v.8, p.29

Leicester, June 12/60.

Dear Charles [Burleigh]

I was very sorry that you could only make so short a stop in the city on yr. return fr. Georgetown. — The printers are a little "put about" at receiving no copy from you, and in order that they may know how to arrange their work, and when to look for our job, I write to ask you if you can name the probable time when you will begin to furnish copy. I wish to make suitable arrangements for having it duly seen and read by the Executive Committee, and will therefore ask you to write to me, and tell me, as nearly as you can, what your

calculations and plans, about the Report, are. I can then notify Printers, and make provision for the proper reading of the Report, — so as to lose no time. Write to me at this place, where I am now at anchor for a time.

We have made now a pretty extensive circulation of the Report recently printed — many copies (some 300 I should say) are in the hands of members and friends of the Society; — about 200 have

gone to Gr. Britain; and some
50 or more copies have been
sent to all. G.s, prominent
persons, and leading journals,
Secular & "religious". I fear
we shall not get many public
notices of it, from the papers.

With sincere regard
Yours
S. May Jr.
